## The Perfect Light

There is one fact about the Angle lamp that the people who use them are always glad to admit that while they admire their appearance, they thoroughly appreciate the cheerful, cheerful, pleasing light. These results can only be attained by a lamp that is constructed on right principles. The current of air circles through and through the flame, mixing perfectly with the oil vapor, the result is perfect combustion by throwing its light down upon your book or table—it is oil lighting at its best.

### The Angle Lamp

resembles a handsome gas chandelier in appearance and is a perfect substitute for gas in operating convenience. Call and see it or write for catalog.
